

## DEMOCRATIC NATIONAL MEET HEARS OF LABOR'S DEMANDS

New York, June 28.—Organized labor represented to the Democratic national convention in New York City demands that the Republican national convention was asked to approve.

The demands were laid before the convention last night by the authority of the executive committee of the A. F. of L. and the executive committee of the United Brotherhood of Carpenters and Joiners of America, the two major labor party campaign committees. The latter consists of President Gompers of the A. F. of L. and James O'Connell of the A. F. of L. metal trades department.

of national verity that child life be protected," the unionists said.

The demand for a law of transportation act was favored, as was a law prohibiting the interstate transportation of convict labor products.

Other demands were: Construction of public works in periods of acute unemployment; a law to protect the world war injured; adequate pay and classification for civil service employees; a law to protect the victims of disease laws; modification of the Volstead law to permit 2.75 per cent

In discussing the labor planks, Greaf, opposition to sales tax; favor graduated income and inheritance tax; favor membership in the league of nations and participation in the world court.

"We declare for the maintenance of freedom of speech, press, assemblage and association," the unionists said. "We oppose any regulation to restrict

need for remedial legislation to meet changing social conditions. This is shown in labor's demand for a repeal of anti-trust legislation, which was passed by congress a quarter of a cen-

Strong ground was taken in opposition to the labor-injunction which the unionists declared to be "a perversion of the law." The Supreme Court, in its decision in *United States v. United Mine Workers of America*, ratified by the states of the child labor constitutional amendment recently passed, said: "It is essential for the conservation of the public health and safety that the government should be able to regulate the employment of children and oppose all proposals to initiate legislation which would seriously curtail the government's power to regulate the employment of children."

In order to maintain representative government based upon the will of the people, we advocate a constitutional amendment which will give to Congress the power to regulate the employment of children to reenact by two-thirds vote any measure declared unconstitutional by the Supreme Court of the United States."

**CLARKE SEES PERIL TO NATION IN WAR**

New York, June 28.—Speaking as president of the League of Nations non-partisan association, John H. Clarke, former U.S. Supreme court justice, declared that unless some substitute for war is found the United States will be destroyed in the next war.

Mr. Clarke resigned from the Supreme court because of his opposition to the abolition of war through unity between the nations.

The speaker declared the time calls for men courageous enough to put into effect the League of Nations constitution which shall prove sufficient to bring about peace.

**UNORGANIZED RICKED: PUBLIC NEXT TIME**

New York, June 28.—Pacific northern lumbermen recently reduced wages 10 per cent, and threatened to cut them more, and though orders are on the way to meet production capacity, the employers, it is declared, will permit stockholders to have their share of the profits necessary to pay reasonable prices."

A general shakedown of the mills is being planned, it is said, and the fear is that the lumber barons have cut the

The lumber men were aided in their wage cutting by their company "union," known as the loyal legion of loggers and lumbermen. The workers were told that the industry is on the verge of collapse and that lower wage rates is the only thing that can save

**COMMUNISTS FAILED TO SPLIT FUR WORKERS**

New York, June 28.—The communists failed to disrupt the convention of the Fur Workers' Union of America, which recently adjourned in Chicago. Several months ago, when the union was in the process of electing new local leaders, the communists tried to split the union. The New York was sent to Canada for intrigue and scandal. The result was shown at the convention, which was held in New York City. The union is an international union and its officers are elected by the members. This representative acknowledged his defeat and did not discuss the resolutions.

For more than two years the communists have been making a national drive in this city, but they failed to elect a single delegate to the convention.

The union is a large, powerful union, but it is not a communist union, but disruption," said Arnold Weiss, a leader of the union. "Those who are for a while misled by their so-called revolutionary talk, they are coming to their senses."

**FUR STRIKE ENDS.**

In financial circles it is now stated that the slackening in the fur market "has been overemphasized." Only the fur workers' strike was the story that no order was being received.

Last week ended June 7 there was a substantial increase in national fur sales. The increase was received by Southern pine associations. The increase was 80 per cent and shipments of furs were 100 per cent. The mills of the West Coast lumber companies are expected to be selling 117 per cent and made shipments amounting to 99 per cent of the total.

With wages assured, and orders for furs, the fur market is expected to go to the top. The price of furs is expected to be high. The price of furs is expected to be high. The price of furs is expected to be high.

**MOSCOW TACTICS WIN; COMMUNISTS DIVIDE**

St. Paul, June 28.—The so-called farmer-labor convention that assembled in this city and did the unexpected thing of electing a Moscow-directed communist and

**WORKERS MAKE GAINS**

Havana, Cuba, June 28.—Cuban railroad workers have ended their strike after securing pledges that victimization will be discontinued.

Japanese will carry the decision to the United States supreme court. They are panic-stricken at Judge Smith's stand as it will drive thou-

**RESISTING WAGE CUTS**

Toledo, Ohio, June 28.—"Business men's administrations" have put this city on the financial rocks, and political rabbits who talk of their business men's administrations are crying a reduction of 15 per cent in the wages of municipal employes. Anti-union em-

Washington, June 28.—Food costs will hold their high level, according to the United States Bureau of Labor statistics. Last May there was a decrease of two-thirds of 1 per cent in the cost of food, but this was offset with the previous month. This change was so small that the department says it was not sufficient to affect the index number, which is a scale of 100 to 4 cents on every \$10 expended.

**PROFITS IN DEY GOODS**  
New York, June 28.—American Stores,

**FULMINAN COMPANY SPLIT**  
Chicago, June 25.—The Fulminan company has organized a new corporation to handle the manufacturing part of its business. The new company, the Fulminan Manufacturing Co., will be a subsidiary of the Fulminan Co. The new company will be organized to handle the manufacturing part of the business, while the Fulminan Co. will continue to handle the sales and distribution of the products. The new company will be organized to handle the manufacturing part of the business, while the Fulminan Co. will continue to handle the sales and distribution of the products.

and jurisdiction of the interstate commerce commission.
